

In the Claims

This listing of claims will replace all prior versions, and listings, of claims in the application:

1. (Currently Amended) A surface-mounting type electronic circuit unit comprising:

- a side electrode arranged on a side face;
- a circuit substrate having a wiring pattern arranged on an upper face connected to the side electrode; and
- an electric part connected to said wiring pattern by soldering;

wherein said wiring pattern has a connecting conductor electrically connecting said side electrode and said electric part, and said connecting conductor contains multiple bends including a U-shaped bend between said electric part and said side electrode and said connecting conductor has a total bend of at least 180°.

2. – 20. (Cancelled)
